

Drawings

Pursuant to 27 C.F.R. §1.84, Applicants have attached two corrected drawings for the Examiner's consideration. The changes made were to remove the shading from the drawing.

If the examiner finds the corrected drawing insufficient, Applicants can submit an electronic copy of the drawings to the Examiner, which then could be transferred to the application electronically. If this approach is needed, please advise Applicants in the proper procedure to submit the electronic copies of the drawings.
